

Maryland Scenario Project

Conceptual Interaction Matrix

The follow matrix demonstrates (at a conceptual level) the interaction between the chosen themes (sets of driving forces) and the five policy categories.

		Themes				
		1 Info Age	2 Rural Infill	3 Region Defensive	4 ?	5 ?
Policy Categories	Economic Development					
	Land Use					
	Environment					
	Transportation					
	Public Services					

In Exercise 3, SAG members will divide into five groups assigned to each of the five policy categories. Each group will provide information for each cell in a matrix (similar to the one shown below for the Economic Development policy category) about the interaction between specific policy packages and the chosen themes. Staff will combine the information from the matrices for all five policy categories to create draft scenarios for Workshop 3.

		Themes				
		1 Info Age	2 Rural Infill	3 Region Defensive	4 ?	5 ?
ECONOMIC DEVELOPMENT						
Policy Packages	No Policy Change					
	Home Run					
	Consistent Singles					
	Efficient Services
